LESS THAN 100,000 SHARES CHANGED HANDS YESTERDAY.

At the Close Most of the List Showed Fractional Gains-Local Markets Quiet and Firm.

At New York yesterday money on call was easy at 31/64 per cent.; last loan, 3; closed.

Prime mercantile paper, 51/2081/2 per cent Sterling exchange was dull and easier, with actual business in bankers' bills at \$4.88% (4.89 for demand and \$4.88 for sixty days; posted rates, \$4.881/2@4 89 and \$4.89@4.90; commercial bills, \$4.87.

Total sales of stocks were 97,291 shares, including: American Tobacco, 18:100; American Sugar, 18,800; Baltimore & Ohio, 7,300; Chicago Gas, 6,890; General Electric, 4,700; Manhattan, 9,200; St. Paul, 3,800; Tennessee Coal

and Iron, 3,000; Union Pacific, 3,300. The lowest total of business that has been ded recently was made yesterday on New York 'Change. The aggregate dealings fell short of 100,000 shares. At intervals during the day a condition of positive stagna-tion ruled, but in the main the tone of the lation, which was entirely prowas strong. Covering of shorts was the chief force under the market. For several days past the bear traders, anticipating vigorous ction by the President in regard to the Cuban imbroglio, have been putting out lines, figuring that the indorsement by the national executive of the overwhelming sentiment in Congress in favor of Cuba would rement in Congress in layor of Cuba would regult in a depression in the stock market.

This assumption is based on the recollection
of the shaking up which occurred in the
market incidental to the famous Venezuelan
manifesto. As the hoped for message seems
to be as far away as ever, the professionals
are dispos d to contract their speculative
obligations. An important legitimate influyesterday on prices was a decline for sight drafts. The limited supply of exchange offerings appears to be sufficient temporarily to supply the very moderate demand, and hence the improbability of shipments of gold in the immediate future. An encouraging development, which was not generally known, was further progress made toward the completion of the Northern Pacific reorganization plan. Following on the settlement effected with the holders of bonds the Northern Pacific & Montana division, it is learned that an arrangement has been satisfactorily completed by the reorganization ittee with the Coeur D'Alene bondiders, and that negotiations are in ogress with the bondholders of the Spokane Palouse and Duluth & Manitoba divisions. A point is now beginning to be made by well-informed people in recalling the decidedly favorable results in the security markets, on the occasion of the last previous trip of Mr. J. P. Morgan to Europe. It is believed that the present visit of the great financier may be attended by equally favorable results in the direction of large sales of

able results in the direction of large sales of American securities abroad. The railroad list was exceptionally inactive, and in the industrial department Sugar led in point of activity with 18,500 shares. Influences of a special nature contributed to exceptional firmness in a few speculations, notably Man-hattan, which gained 2% per cent, on the fa-vorable outlook for extension privileges. Sugar advanced 1½ per cent. on pool buying and purchases by traders. Tobacco was comparatively dull. After an early display of strength, the stock sold off 2 per cent. on liquidation by insiders. There has been a remarkable dearth of news regarding this property since the dividend incident, and the the 20 per cent, scrip payment as yet lack confirmation. Tennessee Coal, on the favorable trade outlook, advanced 1 per cent. The advances, aside from those mentioned, fell

per cent. from the top level. The market closed firm at general fractional gains.

Bonds were firm on transactions of \$1,274,000.

Government bonds were dull but steady on dealings of \$13,000. In State issues, \$1,000
Tennessee settlement threes sold at 87.

In average, 6c. prices there were but few changes ceipts of eggs and poultry are increasing and prices yesterday were again easier. The Eastern demand is hardly as strong as last week. The market is flooded with Irish potatoes and some sold as low as 20 cents a bushel. Cabbage is more plentiful, but still high. Apples and oranges are in light supply and prices strong. Grocers had a good trade, all staples being firm. Segars have an advancing tendency. The provision market is fairly active. At this point the coldings are not as large as a year ago, but at many other points they are larger and higher prices are not likely to prevail, at WHEAT IS BOOMING least in the immediate future. The local grain market, while more active than last month, transactions are few, com-paratively. There is some grain being bought

for immediate requirements, but little is said about futures, dealers and shippers not taking hold with much earnestness. Track bids yesterday ruled as follows:

INCREASE SHOWN

VOLUME OF BUSINESS REMAINS SMALL, WITH LOW PRICES.

Dun & Co.'s and Bradstreet's Weekly Review of Trade Fail to Note. Any Improvement.

NEW YORK, April 10.-R. G. Dun & Co.'s

weekly review of trade, which issues tomorrow, will say: The volume of business has not on the whole increased, nor have prices appreciably advanced since April 1, when the range for all commodities was the lowest ever known in this country. Breadstuffs and iron products have risen slightly, but some other articles have declined, and the root of the matter is that demand for consumption is still below expectations. The number of hands employed has been slightly lessened by strikes in some establishments and by stoppage or reduction in force in others, but the change during the past week has not been relatively important. The weather has not favored active distribution of spring goods, and uncertainty as to continued employment affects the purchases by hands in a large number of establishments. The injury done to winter wheat by storms and frosts at the West would appear from reports of State officers to have been considerable. Remarkably low estimates of condition are published by some State authorities, and while this may be the customary exaggera-tion, there has evidently been much actual loss, which tends at present to lessen pur-chases of farmers and of dealers in farming districts. But the reports are not more gloomy than a year ago, and the quantity of wheat which has come from farms since Aug. 1 has been 163,781,594 bushels, against 129,076,460 at the same date last year, Western receipts for the week are about 60 per cent. larger than last year, and for two weeks about 50 per cent., while Atlantic exports, flour included, have been for the week only 909,055 bushels, against 1,759,006 last year, a decrease of nearly half. These conditions tend to check the advance which reached 3 cents, but was followed by a reaction of 1 cent. Corn rose 2% cents with wheat and on account of small stocks. Cotton has not changed, and known commercial and mill stocks exceed probable nsumption until new cotton comes. The liet pool and other combinations have raised prices of pig iron and steel, but as yet finished products have gained scarcely anything, nor has demand for them increased. The output April 1 was 190,281 tons weekly, against 189,583 March 1, but reported stocks unsold increased 58,168 tons in March, or 13,132 weekly, and there is besides the unknown accumulation of the great steel concerns. Prices for lake ore Tickings—Amoskeag ACA, 10½c; Conestoga great steel concerns. Prices for lake ore BF, 12½c; Cordis 140, 9½c; Cordis FT, 10c; are announced, as expected, \$1.10 higher Cordis ACE, 11½c; Hamilton awnings, 9c; than last year, and the coke combination Kimono fancy, 17c; Lenox fancy, 18c; makes no reduction, but gradually lessens Methuen AA, 10c; Oakland, AF, 5½c; Ports. Methuen AA. 10c; Oakland, AF, 5½c; Portsmouth, 11c; Susquehanna, 13c; Shetucket SW, 6½c; Shetucket F, 7c; Swift River, 5½c.

output. While purchases of pig to anticipate future wants have been heavy, actual consumption is but moderate. Minor metals are dull, but lead is weaker at 3.05 cents on forced sales West. Wool is weaker, with sales for the week only 2,232,600 pounds at the three chief markets, the smallest for many years. Prices tend lower except for fine washed fleece, and manufacturers are rapidly reducing production. There is a fair demand in the dress goods branch, especially due to important steps by customs authorities to stop undervaluations of French and German goods, but it is estimated that not 40 per cent. of the men's wear machinery is at work. There have also been cotton mills stopping or reducing time this week. Further reduction in shirting prints to the lowest point ever reached failed to increase the demand materially. Failures for the past week have been 209 in the United States, against 207 last year, and thirty-three in Canada, against twenty-

seven last year. Bradstreet's Weekly Review. NEW YORK, April 10.-Bradstreet's report to-morrow will say: While there is no general increase in business there are several encouraging features. First, the advance in prices of flour, wheat, corn, oats, pork and sugar, together with that for steel billets and beams and other iron and steel products, including No. 2 foundry pig, and for tin plates. The advance in wheat has continued so much longer than expected that the trade is again discussing the likelihood of this being the beginning of the long advance for cereals which they believed must come after the extreme depression of the past few years. Unfavorbale crop reports from central Western States, confirmation of previous short crop reports from Argentina and Australia, small supplies in Europe and affoat therefor, but, above all, a revival of speculative interest in wheat, are underneath cereal prices. Bradstreet's regular quarterly exhibit of comparative prices of 108 staple articles, including live stock, shows higher quotations for twen-ty-eight products on April 1, 1896, compared with fifty-eight which are lower and eighteen which are unchanged, in contrast with corresponding quotations on Jan. 1. Con-trasted with one year ago, there are in-creases of quotations for forty-eight items, while five are unchanged and forty-nine are

Exports of wheat, flour included as wheat; from both coasts of the United States amount to 1,764,000 bushels this week, compared with 1,693,000 bushels last week, 2,931,000 bushels in the week last year, 1,995,000 bushels in the week two years ago and 2,948,000 bushels in the corresponding week of 1893. Indian corn exports amount to 1.391,000 bushels this week, compared with 2,199,000 bushels last week, and with \$14,000 bushels in the week one year ago and 2,040,000 bushels two years ago.
Business failures in the United States for this week number 231, compared with 236 last week, 225 in the week a year ago, 211 two years ago, and with 196 in the first week of April, 1893. There are thirty business failures reported throughout the Dominion of Canada this week, compared with forty-three last week, twenty-six in the week a year ago and thirty-eight two years ago.

TRADING DULL, WITH A TENDENCY TOWARD BETTER PRICES.

Oats Were Active and Scored a Gain of 1-8c-Provisions Were Almost Quiet, Lard Alone Advancing.

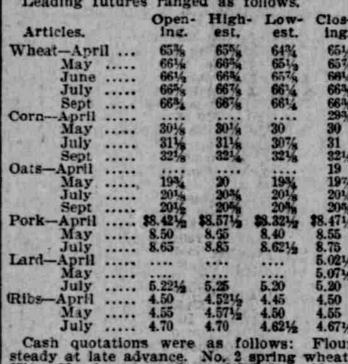

CHICAGO, April 10 .- Anxiety as to what percentage of a full condition for wheat would be given out by the government caused a dull day in wheat. May closed 4c higher than yesterday. Corn closed without change and oats gained \c. Pork closed with a gain of 5c, while lard and ribs each

The feeling developed in wheat was rather mixed, but the tone was on the whole steady to firm. Initial transactions were at %@% advance, after which prices gradually worked back, rallied slightly, changed but little and closed steady. The higher opening was due to some extent to the rather firm' tone of cables, Liverpool coming unchanged, and then the Northwestern recelpts were rather small and imparted some strength to the situation. Commission houses were buyers, having outside orders, and for a while the market ruled quite firm, professionals taking moderate quantities also. There were large offerings as the session advanced, the weather having greater influence than the foregoing. The fact that California had rains all over the State, with warm showers in most of the winter wheat States and more predicted added to the bear-

Corn traders had another dull experience. There were no outsiders in the market and local operators were indifferent. Oats opened active, attracted considerable attention during the entire session and closed with the total sales of the day aggregating much heavier than for some time A good portion of the trading was in the way of exchanging May for July at %c premium for the latter. The firmness was entirely independent and brought about by the scarcity of cash stuff and good demand for same. May opened a shade higher at 19%c, sold to 19%@20c and closed with sellers

Provisions were firm and fairly active, but the trade was largely confined to the one article of pork. There appeared to be a neryous short interest in the latter and it took only the buying of small lots to advance prices. Lard and ribs, although benefiting to some extent by strength in pork, both closed at a slight decline in price for the

From a Broker's View Point. (By S. C. Igoe & Co.'s Wire, 429 Lemcke Building.)

CHICAGO, April 10.-We have had a dull and heavy wheat market to-day. Rains reported over the winter belt with a moderate cash demand, together with the government report due this evening caused a feeling of uncertainty. The estimates on the government are all the way from 76 to 86 as the condition of the growing plant. We believe wheat, on its merits, independent of weather, is worth the money. The foreign situa-tion is strong, the general remark is they don't buy. We don't know where they can cutside of Duluth on this continent. Interior millers have bought here to-day 25,000 bushels. Primary rece'pts have been 281,000; shipments, 121,000 bushels. Clearances equal in wheat and flour 229,000 bu. Corn market very quiet and very little trade Rather free selling of July by West-ern houses. Little feature to the trade. Oats firm, with good demand from shorts. The continued buying of July oats by one of the prominent houses attracts attention.

Provision market was without any special feature. Strength and advance was in sympathy with wheat. Trading was mostly local and largely in way of changing. Receipts of hogs continue light, cash trade light.
